Re: Change of Permit Status, Anval #1 & #2, S/001/038, Beaver County, Utah

Dear Mr. Stevens:

Based on a recent site inspection, it was determined that your current operation located in Section 29, T29S, R9W, is a small mine; therefore, we are changing the status of your operation from an exploration permit to a small mine permit. This does not require that you file any additional paperwork, but it does require that an Annual Report (MR-AR) be submitted by January 31st each and every year, stating what your current disturbance is in acreage and where it is located. Also, please identify what areas you have reclaimed (regraded and reseeded). This report is based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1953, as amended, and the general rules as promulgated under the Utah Minerals Regulatory Program, rule R647-3-116.

Your file number has been changed from E/001/096 to the new file number S/001/038. Please complete and send back to us by January 31st, the enclosed annual report form. Thank you for your cooperation. If you have any questions regarding this letter or need assistance in filling out your annual report please feel free to contact me at 538-5340.

Sincerely,

Tom Munson
Reclamation Specialist
